

## C Club Gives "Go Ahead" On Deal With City Fathers

One might be excused for some things because of ignorance, but it is no excuse before the law. The point I'm getting at is the enforcement of the new city traffic ordinance. Belle Glade motorists can no longer chit chat in the middle of the street, park in the center of traffic, leave engines running in vacated lots, make "U" turns and have a dozen other things they ac-

The clinic plans include moving pictures in slow motion with a running commentary defining the formations. Players and officials will be clearly marked. The clinic should increase grassland knowledge and enjoyment at the games, Pugh said.

Vernie Boots, chairman of the cattle ranch project, announced that all the grass is planted and most of the fencing up.

Asked why he enlisted in the National Guard after his discharge from the Regular Army in 1944, the husky, bronzed sergeant replied that if war comes again he wants to be fighting with his own friends from his own home town, most of whom are also in Bell Glade's "E" Company of the Florida National Guard.

beifers cashed at \$23.75 to 25.00 with one up to \$27.50. Common slaughter steers and heifers sold at \$22.25 and 23.75. A few instances down to \$20.75. A few canner and cutter steers ranged all the way from \$10.00 to 22.50.

Medium slaughter calves made \$24.00 to 27.50. Common slaughter calves bulked at \$22.50 to 25.00. Cull calves brought \$16.00 to 20.50. Canner and

tion of Ray Whitlock and his crew of men, will begin at 7 p. m., early enough for the children. A dance to the music of Jonny Saunders' orchestra and entertainment are planned for the evening.

Committees are: food—Mrs. Bennie Weeks, Mrs. Cliff Livingston, Mrs. Donald Aspy; Mrs. C. J. Aspy and Mrs. Paul Bearden; tickets—Mrs. Leland Pearce and Mrs. Hubert Tillery.

Mrs. E. D. Humphries, president; Mrs. C. T. Pennington, chairman of the morning Circle; Mrs. J. W. Pennington, one; Mrs. S. M. McAllister, chairman of the Ila Darden Evening Circle; Mrs. Clark Wilkinson, chairman of the Hannah Scoggin evening circle.

Mrs. Donald Weeks gave an interesting illustrating talk on "What Is Your Diet," concluding her program with "Healing of the Aile of Mankind by the

**TELEPHONE INCREASE  
POINTS TO CITY GROWTH**

Telephones in Belle Glade today number 1182 as compared with 436 at the end of 1945, according to C. S. Bigbee, company manager here.

The orders threw the resident engineer for a loop, he had never heard of the Tami-ami Trail Blazers and was not aware that the trail to Clewiston required discovering.

The maintenance superintendent, contacted, present argument, and a quart of liquid fresh from Bimini, was induced to undertake the journey.

Trail Blazers were discovered in the dining room of the old Clewiston Inn storing away

Guests Sunday at the home of Mrs. Clara Gledhill were her sister and husband, Mr. and Mrs. Calvin Campbell of West Palm Beach.

Mrs. Abbie Zumph returned Saturday from Montana where she was called by the death of her brother. Enroute home she visited relatives in North Dakota.

Mrs. H. Redhertz, Mrs. C. O'Donnell and Mrs. A. Armstrong, all of Houston, Texas, guests of Helen DeLaure at the Joe Friedheim home while the Friedheim family are in New York, spent last week end in St. Petersburg.

Mr. and Mrs. Harold Rabin and daughter Linda, returned the first of the week from a visit in Pennsylvania and New York. Joan and Linda Rabin, who are attending summer camp in Strasburg, Pa., will return home Sunday.

Mr. and Mrs. Ralph Keeney of Gardner, Massachusetts, were three day guests the first of the week at the home of Mr. and Mrs. H. D. Beck.

Miss Mary Lynn Herring of Bartow, Florida, is visiting at the home of her aunt and uncle Mr. and Mrs. Lee Berryhill.

Reverend Elick S. Bullington, Jr., of Macon, Georgia, who is serving as supply pastor at the First Methodist Church in Fort Myers, was a guest Monday at the home of Mr. and Mrs. F. E. Hollingsworth, Sr. Reverend Bullington is a nephew of Mrs. Hollingsworth.

Mrs. J. W. Moseley, Jr., and son, Walter returned to Tallahassee from Virginia recently where they were visiting Mrs. Moseley's grandfather, J. A. Hooker. She will attend Florida Southern at Lakeland until school opens.

### NINA GEDDES IS BRIDE

ELBERT OF J. B. CREECH The betrothal of Miss Nina Jane Geddes of Fort Myers Beach, to Joseph Barnes Creech, son of Mr. and Mrs. R. Y. Creech, Sr., is announced by the bride-elect's mother, Mrs. Dudley Geddes of Fort Myers Beach.

Miss Geddes graduated from Fort Myers High School in 1948, where she was a member of the Glee Club, Pan American Club, Photography Club, Student Council and National Honor Society. She attended Florida State University in Tallahassee. Miss Geddes was a maid in the Miss Centennial Court for 1950. She plans to enter the University of Florida, Gainesville, in September.

Mr. Creech is a graduate of Belle Glade High School with the class of '46, where he was a member of the band. He attended summer sessions of music at Florida State University, Tallahassee, for two years. Mr. Creech is now a student at the University of Florida, Gainesville, and will graduate in February with a degree in business administration.

The wedding will take place at 2 p. m. September 13, in the Chapel-by-the-Sea at Fort Myers Beach. All relatives and friends of the couple are invited to attend.

Mr. and Mrs. H. L. Hall and two children of Miami were guests last week end at the home of Mr. and Mrs. Lee Berryhill.

Miss Nina Bregger of Washington, D. C., is visiting her Aunt and Uncle, Mr. and Mrs. Thomas Bregger.

Mr. Lloyd Byrd was a business visitor in Key West Tuesday of this week.

Mrs. Charles X. Henry and her sister, Mrs. Kathryn Callahan of Morgan, West Virginia are vacationing in Fort Lauderdale this week.

Mr. and Mrs. Junius Harris, Mrs. Esther Ringo, Mr. O. D. Taylor and Mrs. Lois Jones visited relatives in Tampa Saturday and Sunday.

Mrs. W. R. Hooker, accompanied by her daughter, Mary Elizabeth and son, Bobby, returned Sunday from Nokesville, Virginia, where they spent the summer with another daughter, Mrs. Stuart Michael.

Mr. and Mrs. E. D. Humphries and children, Alaska and Edwards, are vacationing in Darlington, South Carolina.

Carolyn Earwood and Gayle Allison have returned from Clondland, Georgia where they spent the past four weeks at the National Girl Scout Camp.

Mr. Doug Wooten recently completed three weeks active duty at Camp Carson, Colorado Springs. Enroute home Mrs. Wooten joined her husband for a visit with relatives in Hazelhurst, Georgia.

Mrs. Mary Horton, who received a B. A. Degree in library science from George Peabody College, Friday, August 18, has accepted a position as librarian at Camp Breckenridge, Kentucky.

Mr. and Mrs. John Bass and family, Chosen, have returned from a visit with friends and relatives in Toccoa, Dublin and Brunswick, Georgia.

**PICNIC FOR REBEKAHS**  
SUNDAY AT LAKE WORTH

**SHOWER FOR MRS. LAUTZ**  
Mrs. William F. Lautz was complimented with a stork shower last Thursday evening at the home of Mrs. Robert Roadman in South Bay. Mrs. J. E. Thompson, Mrs. Tom Wat-

son, Jr., and Mrs. K. C. Campbell were co-hostesses.

Contest games, appropriate to the occasion were played, with prizes going to Mrs. Lautz and Mrs. Ralph Pipes.

Besides those mentioned, the guest list included: Mrs. George Dupere, Mrs. C. D. McClure, Mrs. Wilhelmina Sadler, Mrs. Juanita Burns, Mrs. L. D. Besant, Mrs. Frede Aunapu, Mrs.

Robert Garrison, Miss Ann Kirchman, Mrs. Ernest Fiedler, Mrs. David Motes, Mrs. L. Price, Mrs. Charles Critchfield, Mrs. A. L. Cumpston, Mrs. Tommy Parker, Mrs. William F. Grider, Mrs. William Thibaud, Mrs. Joan Muler, Mrs. Clara Gledhill, Mrs. Robert Lanier, Mrs. D. Harry Smith, Mrs. Al Kirchman, Mrs. John Randolph, Mrs. Malcolm Bed-

sole, Mrs. W. F. Knight, Mrs. Lois Carlson.

**LEGION AUXILIARY TO MEET MONDAY NIGHT**  
Ladies of the American Legion Auxiliary will hold an informal meeting at 8 p. m. next Monday night at the home of Mrs. Edith Kirchman in Northmoor Gardens. All members are urged to attend.

## This will be Good News to the Vegetable Grower

A vegetable truck-crop grower who lives on the other side of town came in the other day and asked me when he could get a Farmall Cub tractor and a planter and cultivator to go with it.

"Believe it or not," I answered, "You can get delivery in time for your first crop." I went on to tell him that I might be able to deliver, in time, a Farmall C or a Farmall Super-A, whichever would fit his farm and crop plan best. Any

one of 'em has the right speed and clearance for any job, crop, or row spacing. And on all three you can get fingertip Farmall Touch-Control for hydraulically controlling mounted quick-change implements. It's simple too. With one finger, you "tell" the implement what to do!

And don't forget this important thing about a Farmall. Whenever you need parts or prompt service, I'm always here to help you.

## WSSC Circles Hold Last Joint Summer Meeting

"Christian Education Around the World," conducted by Mrs. D. R. Kenner was the program of the 11th meeting of the two afternoon WSSC Circles, held August 23, at the home of Mrs. S. L. Wright. Assisting Mrs. Kenner in the presentation were Mrs. Ralph Kidder, Mrs. H. D. Beck, Mrs. M. M. Sabitan, Mrs. George Farnall and Mrs. S. L. Wright. Devotional were led by Mrs. James A. Ball, Jr. The program closed with reading the 95th Psalm, followed by group singing. A short business meeting was conducted by Mrs. George Farnall.

Beginning in September, the two circles will hold separate meetings. The Ruth Naomi Circle will meet, September 27, at the home of Mrs. James A. Ball. The Mary Martha Circle, the same date, at the home of Mrs. Ralph Kidder. Next general meeting of WSSC four circles will be held September 13th.

Others attending besides those mentioned were: Mrs. J. F. Brown, Mrs. Frank Dooley, Mrs. D. W. Harris, Mrs. W. R. Hooker, Mrs. C. E. Maynard, Mrs. F. D. Stevens, Mrs. N. Z. Taylor, Mrs. Joe Jones and Mrs. H. M. Taylor.

Mrs. Wright served refreshments at the close of the meeting.

## CATTLE MARKET HAS

(Continued from Page 1) ter bulls were scarce with a few common bringing \$22.25. A good stocker heifer cashed at \$28.75. Medium stocker steers and heifers ranged from \$22.00 to \$27.75 with the bulk going at \$23.00 to \$25.00. Common stocker steers and heifers brought mostly \$22.00 to \$24.50 with a few down to \$20.00. Inferior steers and heifers cashed at \$18.00 to \$21.00.

Medium stocker calves caught the trade's eye at \$23.00 to \$29.00. Common stock calves were in good demand with most making \$22.50 to \$25.50, a few up to \$28.50. Inferior calves ranged from \$12.00 to \$23.00 with most toward the higher side. Inferior stocker cows scored \$16.75 to \$19.00. A few common and inferior stocker bulls cashed at \$19.00 to \$24.75.

## DIST. OFFICERS GUESTS AT VFW SOCIAL MEETING

Veterans of Foreign Wars Post No. 4181 and Auxiliary enjoyed a social meeting Tuesday night, August 22, at the Club. A delicious pot luck dinner was enjoyed by members and guests, after which Canasta was played.

About 50 members attended. Out of town guests were: Sister Nannetta Lawrey of Vero Beach, Department Chaplain; Sister Pearl Chew, Ft. Pierce, 11th District President and Sister Nannetta Baker of Vero Beach, 11th District Secretary.

## Jill MacDowall Patient At Belle Glade Hospital

Mrs. Jack MacDowall, wife of a former pro at the Country Club of the Everglades, is a patient at Belle Glade Memorial Hospital, suffering from a leg ailment. Mrs. MacDowall (known locally as Jill) entered the hospital Thursday under the care of Dr. Ralph Pipes.

The MacDowalls are now living in Clewiston where Mr. MacDowall is pro at the Country Club.

## CITY WILL DECIDE

(Continued from Page 1) nate clerk; Mrs. Lawrence Besant, Mrs. Hazel M. Parsons, Mrs. C. E. Maynard, inspectors; Mrs. Neil Scullen and Mrs. Frank Hobson, alternate inspectors.

City Clerk Anderson asked that voters announcing registration for election be displayed on city vehicles and in public places.

Withdrawal of Cliff C. Livingston as candidate for commissioner was accepted. George Bender was granted the right to test a short wave antenna on the water tank.

The agenda included requests by W. C. Taylor, representative of the colored community. He asked that stop signs be placed at Avenue A and Fifth Street; lights be installed by the school; Fourth to Seventh Streets be paved and playground facilities be installed.

Letter from the Florida League of Municipalities suggested that the city draw up an ordinance defining communism and outlining punishment for its practice. The council instructed Attorney Beck to draw up such an ordinance.

## Kindergarten Pupils Will Register September 5th

Children who will enter elementary school next year are eligible for Kindergarten, according to Mrs. Frank Dooley. Registration is scheduled for September 5th, at the Primary building, across the street from the New Methodist Church. For details, contact Mrs. Dooley.

## PTA EXECUTIVE BOARD TO MEET MONDAY NIGHT

PTA Executive Board will meet at the High School Cafeteria at 8 p.m. Monday, August 28. Mrs. L. P. Parson, president, urged all members of the board to be present.

Regular meetings of the Executive Board are scheduled for the first Monday of each month at 8 p.m. PTA will meet each second Monday at 8 p.m.

## TEACHERS PREPARE

## VFW AUXILIARY HOSTS AT CANASTA PARTY

VFW Auxiliary Post 8181 entertained with a Canasta Party Thursday night, August 17, at the Post Home. Mrs. Clara Kirkham, Mrs. Donald Kirkham, Mrs. Ruth Gangstad and Mrs. Clarence Williams received prizes for high score, and door prizes went to Edward E. Allen and Mrs. Earl Williams.

Refreshments were served by Mrs. Donald Kirkham, Mrs. Clara Kirkham and Mrs. Earl Williams.

## Mrs. Allison Presents City Study Program

Members of J. O. Y. Circle, Women's Society of Christian Service, were housed to Night Circle Two, at a joint meeting held Tuesday evening, Aug. 22, at the Methodist Church.

Mrs. L. B. Berryhill, chairman, presided at the meeting. Group singing was led by Miss Lynn Herring. The study program, "One World,"

## LEGAL NOTICES

IN THE COUNTY JUDGES COURT IN AND FOR PALM BEACH COUNTY, FLA.:  
IN RE: ESTATE OF EARL DEAN CARTER, deceased.  
All creditors of the estate of EARL DEAN CARTER, deceased, are hereby notified and required to file any claims or demands which they may have against said estate in the Office of the County Clerk in the Court House at West Palm Beach, Florida, within the time specified in the notice. Each claim or demand must be in writing and must state the place of residence and post office address of the claimant, and must be sworn by the claimant. It will become the duty of the claimant to prove the claim. RUTH C. WILSON, Executive of the Estate of EARL DEAN CARTER, deceased.  
Published August 25, September 1, 1950.

concluding the book, "Jesus, God and I," was given by Mrs. R. V. Allison. Services were closed by group prayer.

Attending were: Mrs. John Schoenfeld, Mrs. A. Trogen-

za, Mrs. Clyde Doolittle, Mrs. Mrs. S. K. Smith, Jr., Mrs. Frank Norris, Miss Sarah Diggs, Aubrey Arnold, Mrs. Jack Hall, Mrs. C. E. Maynard, Mrs. H. Mrs. Alfred Vadaz, Mrs. Doug C. Collins, Mrs. Ralls Mackey, Thompson, Mrs. Lee Berryhill, Miss Anna Keene, Mrs. M. R. and Mrs. R. V. Allison, members, Mrs. E. O. Gangstad, bers, and the following guests:

Mrs. L. J. Wieringo, Mrs. Edwin Groover and Karen Allison. Mrs. Alfred Vadaz, Mrs. Doug Thompson and Mrs. Jack Hall served refreshments.

# Citizens and Voters

I am a candidate for re-election to the City Commission from Northboro in the coming City election, September 12, 1950.

## I STAND FOR:

1. Continuing and expanding the street program. (More hard surfaced streets)
2. Continuing and expanding curb, gutter and side-walk program.
3. Side-walks on North Canal Road to the School.
4. Continuing and expanding parks and play grounds in all sections of our City.
5. Covering of open ditches in our drainage program.
6. Continuing adequate police protection.
7. Continuing adequate fire protection.
8. Continuing slum clearance. Repairs to non-fireproof buildings, making them safe for occupancy as soon as materials are available.
9. More street lights.
10. Adequate signs in residential sections of our city to protect our children, playing or crossing the streets.

## I WOULD STAND FOR AT THE PROPER TIME:

- a. City Manager
- b. Extending City limits to include Chosen, Osceola Camp, Hospital and airport. With this extension we would become the second largest city in Palm Beach County, and would have much to gain from our County, State and Federal administrations.

I earnestly solicit your support and votes.

Respectfully,

# Harold J. Rabin

"WE SERVE THE GLADES"

Steel & Concrete Building Supplies & Materials  
Concrete Blocks — Construction MaterialsBelle Glade  
Phone 3070Palm Beach  
Phone 8861**Unemployment Compensation**

Unemployment compensation paid nearly \$36,000 into Palm Beach County last week during July, according to Arthur M. Larrimore, manager of the Belle Glade office of the Florida State Employment Service.

Payments ranging from \$6 to \$15 per person were made to an average of 448 claimants per week. Most claimants were recorded the last week of the month with \$46 receiving payments.

Claimants for the most part are seasonal trade and service workers who were idle as a result of summer layoffs.

When layoffs and unemployment occur the economic shock hits employers as well as workers. Such employment is often beyond the control of individual employers. For example, the seasonal pattern of the Palm Beach economy is beyond the control of any employer or employee; no matter how much economic planning is done on the part of management.

During 1949 more than \$343,000 was paid to Palm Beach County workers in unemployment compensation. Employers from this county contributed nearly \$255,000 to the unemployment compensation fund with the result that over \$48,000 more was spent in the county in the form of insurance payments than was paid in the form of premiums.

Unemployment insurance also helps prevent the scattering of trained workers during temporary layoffs. In many instances unemployment insurance has kept workers from leaving town for new jobs and employers could rely on their businesses permitted instead of going through the long process of training new workers.

Larrimore pointed out that workers are not allowed to draw unemployment compensation benefits when work is available for them.

**Portable Radio Station**

Ready For Use in Glades

A new portable radio station, designed to operate almost anywhere, has been licensed by the Federal Communications Commission and will be available for this area in emergencies, P. P. Delkora, manager for Florida Power and Light Company announced yesterday. The new unit has many features of unusual features. Equipped with an electric generator driven by a gasoline engine, it can provide its own electric power. Built compactly, the transmitting and receiving set can be easily loaded on a company truck for swift hauls to trouble zones.

Even its antenna is designed so it may be quickly strung to a tree or building and the set put in use in a matter of minutes.

Able to transmit over distances up to 50 miles, the portable radio will be used by Florida Power and Light Company "center" to handle company messages in a storm-struck area and particularly to direct the company's radio equipped trucks in repair work.

Designated by the government as Station KIC-607, the new transmitter will operate on 150 watts input power and utilize modern "FM."

Florida Power and Light Company has 5 radio-equipped trucks and supervisors' cars in this area engaged in maintaining service to customers. Throughout the state, the utility has 217 radio-equipped vehicles, a number of which can be brought here to aid in restoring service promptly in any emergency.

**"Effects of Atomic Weapons"**

Proves To Be Best Seller

The American people are principally interested in children, aviation, and gardening, as disclosed by sales figures of U. S. Government publications, but officials of the Government Printing Office today were ready to add a new best seller to its list as purchasers lined up at the Government Printing Office Book Store in Washington, and mail orders began arriving from all over the country for the new Atomic Energy Commission publication entitled "The Effects of Atomic Weapons."

This publication contains previously unpublished data on atomic explosions and is of primary interest to persons engaged in civilian defense, the building trades, and all others vitally interested in what happens when an atom bomb explodes. The book, prepared by the Atomic Energy Commission from non-confidential, scientific, and technical information, presents the most informative and authoritative data that can be disclosed and is now for sale to the public by the Superintendent of Documents, Government Printing Office, at \$1.35 a copy.

**County Voices Need For Trained Stenographers**

There is a need for stenographers in Palm Beach County according to an announcement issued by the Merit System Office in Tallahassee. Trained and experienced stenographers who are interested in positions with Merit System agencies in the local area or in other parts of the State are requested to obtain information and application forms from the Employment Service Office, County Health Departments and Public Welfare Offices, or directly from the Office of the Florida Merit System in Tallahassee. The next written examinations for stenographers are scheduled for September 16, but performance tests must be completed at least one week prior to this date.

**Florida Honey Co-Op**

Reaches For Markets

A small group of some of Florida's largest and most experienced honey producers have joined hands in a move to start organized marketing of Florida honey.

This group, Florida Honey Cooperative, will have access to about 500,000 pounds of honey this year. Florida's honey production is estimated at some 10,000,000 pounds a year, which makes it the fifth largest producer in the nation.

Plant and headquarters of the Co-op is at Unatilla. The Co-op is already selling to chain stores and supply houses. Where individuals have failed to market the honey with large stores, the Co-op has a decided advantage in being capable of offering large and even supplies throughout the year. So far sales have been concentrated in the Southeast.

The Florida honey co-op is the only honey co-operative in the Southeast, and one of the few in the nation. Florida Grower Magazine gives a complete report on the operations of the new co-op in the July issue.

**ACTIONS BEHIND**

(Continued from Page 1)

dual numbers appear on the

buyer's and seller's statements.

Helena and Sidney are led

into their designated pen to

stay until sale time. Since they

were first arrivals, they won't

have long to wait as indicated

by their lot number. In the

meantime buyers and sellers

amble along the catwalks over

their pen inspecting them."

The time arrives. They are

led into the "ready pen" where

an experienced cattleman sorts

them into grades and decides

if they are to be sold singly or

in a group if the owner has not

indicated a preference.

They are weighed. Weight

tickets are made in triplicate

bearing notation of number and

kind of animals they are, their

total weight, and the number

pasted on them. A worker

passes these on to the auctioneer

by means of a rope and

pulley. The auctioneer announces

the weight and passes the

ticket on to the clerk. The bar-

tering starts—Helena and Sidney

are sold.

The clerk records the buyer's

name and assigns the animals to

a buyers pen in the left section of the market. He

sends on a copy of the sales ticket

to the penning crew and

two duplicates to the office by

messenger. Office workers at

each one of these to the seller's

statement and one to the buyer's

statement.

Within minutes after Helena

and Sidney are sold, their former

owner can receive a check in

full payment for them at the

office.

The animals are led to the

loading chute when the sale is

over and their new owner is

given a receipt of payment

for them. The clerk arranges

for their loading. If their new

owner is a local Glades rancher,

Helena and Sidney remain

'main' in the market all night

and be loaded the next day.

The processing is done by a

24-man crew, five of whom

work in the office. During the

### HOSPITAL, RED CROSS PLAN TRAINING SERIES

The Belle Glade Memorial Hospital and the American Red Cross are laying plans for a series of first aid courses for the area to begin soon.

Ernest H. Fiedler and Dr. Herman Baxt are local organizers of the program, and individuals and organizations interested in the courses should contact them.

Under the plan two separate courses, standard first aid training of 18 hours and instructor's training of 12 hours, are scheduled. The latter course will be open to those already holding a standard certificate.

Melvin Livengood, Red Cross Executive Secretary in West Palm Beach, and Richard Morris, Director of the first aid courses of the American Red

Cross, recently consulted with Fiedler and Baxt on the plan. "We would like to see at least one person from every family take the training," Fiedler says.

### SESBANIA, INDIGO CROPS INCREASING SAYS COUNTY AGENT

More than 2,500 acres of crop land and citrus groves in Lee County have been seeded to cover crops this season, reports County Agent C. P. Heuck. Sesbania has proved to be the most popular legume for vegetable and indigo land, while hairy indigo was planted by most of the citrus growers.

Several thousand additional acres of range lands have been converted to permanent pastures this year, the agent says, with Pangola leading all other grasses in acreage.

Mr. Heuck also reports that the mango harvest is over. Most of the mango went to California where they brought high prices.

The Agricultural Extension Service, Gainesville, has a new bulletin on control of house-hold insects.

When peanuts are grown on light sandy soils, dusting them with sulphur increases both yields and oil content of the nuts. It has been found by agronomists at the Florida Experiment Station.

### INTEREST IN LIVESTOCK GROWS IN PALM BEACH

More interest than ever is being shown in the livestock industry in Palm Beach County, reports County Agent M. U. Mounts, as evidenced by the many requests pouring in from local and out-of-state individuals about livestock possibilities.

Although the agent believes that vegetables will continue to be a major agricultural enterprise in the county, he says a combination of vegetables and livestock would benefit both the farmer and the total agricultural effort of the area. Therefore, Mr. Mounts is advising farmers to fence and cross-fence their land where possible, as an aid in developing better crop rotation systems and maintaining better control of livestock.

### Brahman Assoc. To Hold Meeting September 2

Directors of Eastern Brahman Association will discuss the association's Atlanta exhibit at a meeting called for 11:00 a. m. Saturday, September 2, in Bartow, it is announced by President L. E. Fugle.

The registered Brahman show for the 1950 Southeastern Fair will embrace about 100 head from Louisiana, Georgia, and Florida, according to W. T. Bennett, stock show superintendent.

A premium list of \$2,000, including funds pledged by the American Brahman Breeders' Association of Houston, has been posted, and copies are to be distributed within the next few weeks.

George W. Barnes, district extension agent from Fort Stockton, Texas, will judge the Brahman show, beginning at 9:00 a. m., Thursday, October 5. Cattle are to be in the barns on Sunday, October 1, and will remain for the duration of the show which closes October 7. Plans for the show are perfected by Bennett and R. E. Warren, L. S. Harris and T. J. Durance, Jr., representing the EBA, co-sponsors of the show. Warren of Jessup, Ga., and Harris and Durance, of Babbow and Brighton, Fla., respectively, are members of the EBA permanent show committee of which Sid Crochet of Clewiston is chairman.

The Atlanta show will embrace all popular breeds of cattle, but this is the first time a Brahman division has been included.

### Fla. Vegetable Industry To Use 30 Million Containers

Approximately 50,000,000 containers will be required to transport the 1950-51 crop of Florida vegetables and non citrus crops to market and some essential container materials may soon be in short supply, according to LaMonte Graw, manager of the Florida Fruit and Vegetable Association in Orlando.

"A preliminary survey of sources of container supply recently completed by the Florida Fruit and Vegetable Association has developed the fact that while container manufacturers have adequate facilities for meeting this need, the available supply of materials is considered to be limited. The container situation has already been reported as serious on the Pacific coast.

"Growers and shippers are concerned over the probable

restrictions which might be placed on containers by the Federal Government. Container manufacturers are faced with the possible diversion of the supply of lumber, nails, steel and other materials, and with the fact that the cost of these materials is rising.

"Other factors affecting the availability of containers are the possibility of price ceilings which could place manufacturers in a difficult situation, and the conversion of some plants to government work. One manufacturer has already advised that his plant is converted to war supply," said Graw.

Container manufacturers have urged shippers to build up inventories so that manufacturers might be able to supply their needs before diverting their facilities, according to Graw.

Shippers will recall the fact that during World War II the Federal Government restricted the number of types of containers that could be used. It is suggested that they should be prepared to discuss voluntary standardization of containers, such as has been achieved for celery and other commodities, at the annual meeting of FFVA in October," said Graw.

The association is holding its seventh annual meeting on October 4, 5 and 6 at Miami Beach. Early registrations by members and suppliers indicate a heavy attendance, according to Graw.

### GLASSCOCK STRESSES HOT WEATHER CHORES FOR STATE STOCKMEN

Mowing pastures if necessary to keep them in a vegetative condition and treating all injured animals to prevent screw-worm infestation are two important jobs for Florida cattlemen at this season of the year, according to Dr. R. S. Glasscock of the University of Florida Agricultural Experiment Stations.

"During the summer rainy season," the animal husbandman explained, "grass grows fast and should be mowed to keep it from becoming mature and fibrous. Use of a mowing machine on a pasture that is growing too fast for the stock on it will mean pounds of beef the cattleman would not get from mature grass."

Screw-worms are particularly troublesome during the hot months, Dr. Glasscock also pointed out, and early detection of cuts and bruises on animals, and treatment with a suitable repellent will prevent infestations.

The experiment station animal husbandman also offered these seasonal suggestions for cattlemen:

Isolate cows with heifer calves from bulls to prevent too early breeding of the heifers.

Make arrangements to provide supplemental feed and good pastures for heifers that are to be retained for the breeding herd.

Market all well developed calves that are hot to be held over for herd replacements.

Plan to plant clover and other legume pastures in the fall.

Spray regularly to control flies and other pests of livestock.

### RANDOM LINES

(Continued from Page 1) some rations furnished by the Clewiston Company with the view of breaking down sales resistance in bartering for some choice town lots.

We soon discovered who the Blazers were. There could be no doubt. It seems that these explorers had formed this motorcycle trail from Miami to Tampa immediately after the road grade had been leveled. They now proposed to open the route

through the Everglades east and west.

Cars of the motorcycle were stripped for action. Fenders were removed. Axes, shovels and cordage festooned the cars appearing like paper streamers at a New Years Struggle. Their slogan—"Palm Beach or Bust."

After several self congratulatory speeches by members of the group, the Palm Beach County delegation was found. The reason for their discovery was that the maintenance superintendent insisted on wearing conventional blue serge plus detachable collar and tie. The blue serge suite was hot and he was in no good humor.

The M. C. requested that the Palm Beach County representatives say a few words. Tony took the floor with a lurch and exclaimed, "what do you want me to say." The M. C. replied, "tell us why you are here and what you came for. Address a few words to these gentlemen."

Answering Tony said, "we had to come or Jake Boyd would have fired us. I tried to get the engineer to come by himself but he wouldn't, so here I am. I can't figure out what you want to do, this is

1926 and there is only one road to Twenty-Mile Bend, the Palm Beach County delegation. It does not need blazing. The only trees around are avocados, and the owners would raise —. Another thing, it is very dusty, and if I were you I would go back."

Tony sat down and further remarks were requested from him. The first long distance, two-way telephone conversation took place in 1887.

Eggs will beat lighter and more quickly when not too cold.

Since August, 1945...

## We've Nearly Doubled the Number of Telephones

...and we're still on the run!

What an expansion of telephone facilities for five short years! The number of Southern Bell telephones in service has been increased from 1,805,980 at the end of World War I to 3,666,000 today—nearly doubled. Thus, in five years time, we have achieved an increase in telephones as large as the increase for the first 63 years of our company's history.

And here's more of the five-year picture of progress:

RURAL TELEPHONES tripled ...

from 144,721 to 434,000.

LONG DISTANCE CIRCUITS nearly

doubled, going from 9,300 to 16,500.

AMOUNT OF MONEY INVESTED

IN TELEPHONE FACILITIES more

than doubled, advancing from \$389,

600,000 to \$937,000,000.

SERVICE ... clearer, faster and

more dependable.

The South has experienced five years

of unprecedented growth ... and a

tremendous upsurge in telephone

demand in towns and on the farm.

Meeting this demand has meant

constructing new buildings, installing

new central office

equipment and thousands of

miles of wire on pole lines

and in cables. For each telephone

added today, these

facilities are costing nearly

twice as much as in 1945.

Telephone service is one of the nation's great assets in any time of emergency. Our facilities and the skill of telephone men and women were never so far advanced as they are today. Whatever communications needs may arise, they will be met to the utmost.

# DAIRY GROUP DRAWS UP OBJECTIVES FOR INDUSTRY FOR YEAR

Maintenance of a high standard for milk and milk products and continued efforts for herd improvement are major objectives of the Florida dairy industry for 1950-51, according to Clarence W. Reeves, dairy specialist with the State Agricultural Extension Service and secretary of the Florida Dairy Industry Planning Committee. The committee met here recently to review dairy progress during the past year and to make plans for the new year. It includes 18 members and represents all sections and all phases of the state's dairy industry.

In addition to high standards for milk and milk products and herd improvement, the group also drew up and recommended the following objectives for 1950-51 for all members of the industry:

Full support and cooperation

in the state mastitis control program.

Continued efforts in cooperation with the State Live Stock Sanitary Board to eliminate brucellosis from herds.

An all-around good herd health program.

Development of cooperative artificial breeding to enable more dairy farmers to secure service from bulls proved for high production. In this objective the committee emphasized service out that use of unproved bulls on a large scale in artificial breeding opens the possibility of great damage from bulls which later prove poor.

Use of methods of raising dairy calves that will assure their development for maximum milk production.

Improvement of pastures and production of at least 35 percent of the total feed supply on the farm.

Handling of Class 2 milk so it will not depress the price of Class 1 milk.

Development by milk plants of the most profitable outlets for surplus milk through sale of cream, skim-milk products, condensed milk, and other milk products.

Members of the committee are John G. DuPuis, Miami, chairman, Wilmer Bassett, Monticello, acting chairman, Mr. Reeves, secretary, Vernon L. Graves, Limona, E. T. Lay, Jacksonville, V. C. Johnson, Dismore, John M. Scott, Gainesville, H. C. Clayton, R. B. Becker, E. L. Fouts, D. A. Sanders, University of Florida, P. D. Shirley, Tampa, Bill Hartman, Gainesville, and Oliver Burgess, Marianna.

FFVA To Review Competition At Miami Meeting Oct. 4-5

Florida producers of fruits and vegetables will review in close detail, at a meeting of the Florida Fruit and Vegetable Association in Miami Beach, Oct. 4-5, both domestic and foreign competition in their field, from data supplied by FFVA economists based on several years' figures, according to the association's manager, LaMonte Gray. While the situation abroad is highly uncertain, studies are being made with a possible shortage in refrigerator cars in mind, which naturally would throw a heavy responsibility on Florida growers to replenish short markets formerly supplied in part or in whole by Cuban and/or Mexican exporters.

The recommendations are ready made by FFVA officials, for increase, decrease, or no change in specific products, will be reviewed at that time, in case the national situation does not ease. Recommended for increase are cantaloupes, cauliflower, lettuce and strawberries, with decreases for snap beans, cabbage, celery, cucumbers, eggplant, escarole, peppers, Irish potatoes, fall squash, and watermelons. Lima beans, sweet corn, green peas, winter and spring squash, and tomatoes were suggested to follow the 1949 acreage.

Whether or not wholesale revisions have to be made later in these recommendations, Gray points out a cheerful note in the fact that production of most of these commodities is already at or above World War II levels.

Muck Grown Vegetables Show More Protein, Say Experiment Authorities

The following article in the Miami Herald testifies to the slow-growing realization of the supremacy of Everglades grown vegetables:

"Scientists have buried an old ghost that used to pop up to haunt Floridians every once in a while. It's the question: Are Florida vegetables as nutritious as vegetables grown elsewhere?"

The answer is an emphatic "yes," Nixon Smiley, Herald farm and garden editor, told farm story Sunday, quoting world-famous experts. Some Florida-grown vegetables, he noted, have been proved by tests to contain more vitamins and minerals than the same kind of vegetables grown in other states.

Other tests showed vegetables grown in the peat soils of the Everglades contain more proteins than foods grown on mineral soils.

So the answer, in case anybody asks you, is that Florida vegetables are every bit as nutritious as those grown in the rest of the country—and some times more so.

As for flavor, just try any Florida vegetable cooked and served within a few hours after being harvested. That's when the taste is best."

According to tests made at the Everglades Experiment Station, even grasses grown on muckland show more protein.

# PRISON FARM MOVES

(Continued from Page 1)

one of which will be a complete hospital.

Complete with stam stove, huge ice box, cooling room, deep freeze room, dish washer and steam tables, the kitchen presents a distinct contrast to the old one.

In the former kitchen-wood floors were so worn one could see the ground below. Cooks prepared food for 260 prisoners on all stoves. It contained little of the necessary equipment.

Covered walk ways connect the main building with colored barracks on both sides of the building. The unsectioned barracks provide space for 600 colored and 50 white prisoners. Guards keep a vigil all night in the alleys surrounding sleeping areas.

No jail would be complete without the dreaded solitary confinement cells. The new prison has six with complete sanitary facilities which provide the only form of punishment in the institution.

Other new features of the farm include a standard athletics field south of the buildings and an auxiliary power unit.

Actually completion of the prison is only the beginning of a crowded construction program at the farm. Future plans include a brick office building in front of the gate house, new guard barracks, conversion of the old guard barracks, additional staff houses on the old farm site, five new garage and machine shops, two ware houses and a cold storage house.

Superintendent Greene has seen the farm expand from a "L" shaped building designed to accommodate 40 men into the existing plant. He witnessed addition of the syrup mill in 1935, the sugar mill in 1945, and the dairy barn two months ago. He has seen a complete

dairy herd developed, a beef herd begun and canning facilities increased.

Now the farm is completely self supporting with the exception of imports of flour, coffee, salt and a few other staples.

In addition to providing its own groceries, the farm produces enough to sell five times the amount it uses to other state institutions. Excess proceeds turned into the state

general revenue fund amounting to \$100,000 last year.

Under the increased production schedule last year, the farm produced 261,000 pounds of sugar; 200,000 pounds of dried beans; 83,000 gallons of tomatoes; and 45,000 gallons of syrup. Through its own trucking service, the prison distributes produce to institutions from Big Pine Key to Pensacola.

- Complete road demonstration before you buy!
- Easy credit terms (if you desire them).
- Fully guaranteed!

**ASK FOR THEM ON THE NEXT CAR YOU BUY**  
Put them on your present car today!

**WHY WILL ONE OF THESE BOYS EARN \$24,000 MORE?**

During his working years, the average boy who finishes high school earns about \$24,000 more than one who drops out. It may seem better to quit school and go to work...but in the long run it's better for the boy...and his country...to stay in school and graduate.

**EDUCATION HELPS THOSE WHO'LL BE "HELPING BUILD FLORIDA" TOMORROW!**

Electric service is one of many careers where graduates have a decided advantage. Electric utility work requires high degrees of skill, special knowledge and perseverance which those who complete their educations are most apt to have.

**Hi, Students!**

"Your eyes are priceless. Light is cheap. Be sure you've got a modern Sight-Saving Study Lamp to help make homework easier."

Your Electric Friend  
**Roddy Kilowatt**
